

# TAX ME

## Why should I sign this?

Sarcasm works. A short, simple, thought provoking, and sarcastic message is what will make politicians seriously consider the vote they are about to cast.

If you are someone that doesn't like your ever increasing tax burden on your family and your business and want a simple way to influence policy without taking a lot of time, I am asking you to sign one or both of these letters and deliver them to city hall. On April 16 (the day after the IRS has had their way with you) I will present a motion at the city council meeting to repeal a tax on the tourism industry in Lago Vista. Maybe we don't have much influence in Washington DC or the state capital, but we can have an effective tax protest in Lago Vista that results in policy change.

All we need you to do is:

1. Sign one (or both) of these letters
2. If you want to add your own comments, there is plenty of space at the bottom of the letter to do so
3. Deliver 7 copies to city hall and ask the staff to place them in each of the council member's mailboxes

DONE!

For this effort, quantity is more important than quality. The more letters, the more influence. We must demonstrate that it isn't just me that defends the free market and lower taxation.

Let's make April 16 our tax protest day in Lago Vista. It is up to you to make your voice heard.

PAT DIXON

Lago Vista City Council, Place 4
